

MARAYA

M.Y. Maraya
December 2011

Proguard:

Maraya is one of the busiest charter yachts in the world fleet and the nature of this usage loads intense demands on the vessel and its crew. I was not initially convinced that Zytexx would provide the levels of performance and longevity that were claimed. However, now that I have seen the product in operation on sections of our topsides for almost twelve months, I have nothing but praise for its performance. The gloss levels have remained high and the cleaning time required to maintain the topsides has reduced dramatically.

Without a doubt the product works and the extension to the paint life can only benefit any yacht and its repainting schedules.

Sincerely

Paul Were
M.Y. Maraya
